REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Stoddard:

I hereby submit my second annual report as Superintendent of Schools.

ORGANIZATION

School Board: Kenneth McClure, chairman; Mrs. Charles Hill, Mrs. Maurice Mansell.

Superintendent of Schools: Stewart V. McCormack.

School Nurse: Margaret Harris, R. N., Keene, N. H.

Attendance Officer: Kenneth McClure.

Teacher: Mrs. Mary Lane.

THE GENERAL REPORT

The opening of school last September in Stoddard, found us with a record enrollment, necessitating considerable transportation expense beyond our expectations.

The extreme shortage of teachers made it impossible to secure one for Stoddard for the current year and Mrs. Mary Lane very reluctantly agreed to exchange her security of home life for the rigorous task of teaching yet another year. I believe that all too often we overlook the very great sacrifices which a person like Mrs. Lane makes, in order to assist her community in time of need. Fortunately for us, Mrs. Lane is a well trained and experienced teacher and has served her pupils extremely well, in contrast to the great many less fortunate communities during this teacher crisis. Any discussion of teacher supply here would be entirely inadequate. A good way for each person to answer the problem would be for him to ask himself how many persons he knows who have entered teaching within his memory and contrast this with the number he knows to have left it. This answer to most people is obvious.

The Center school under Mrs. Lane has prospered much. With the cordial cooperation of the school board, we have been enabled to secure some new teaching aids. Parents have co-operated nearly one-hundred percent in keeping their children in school regularly and promptly. It is natural to expect some conflicts in every community but trouble has been very negligible this year in Stoddard. Such happy circumstances allows us to focus more attention on school progress.

It seems as though the citizens of Stoddard should carefully consider the advantages of Keeping their Center School open, for years to come. It will be readily evident that advantages far outweigh any disadvantages. If such a decision could be arrived at, we would then be in a position to aid and hasten the well-planned work of the school board by making certain fundamental improvements in the plumbing, heating, and seating at the school.

The school needs modern toilets, continuous heat, such as could be provided with oil, and modern seating. While there are no figures available on the cost, it doesn't seem that it would be prohibitive and certainly the children of a community warrant any nominal expenditure of tax money for such a crying need. Movements for such progress should come from the community.

Graduation exercises of last June found Barbara Gasperoni being graduated by the school board. Pupils presented a timely operetta directed by Mrs. Lane. Miss Gasperoni is reported doing good work in Keene High School.

In conclusion I wish to thank the citizens of the Stoddard School District for having elected to their school board, such fine, sincere people as Mr. McClure, Mrs. Hill, and Mrs. Mansell. Their cooperation and endeavor in behalf of the school is greatly appreciated by your superintendent.

Respectfully submitted,
STEWART V. McCORMACK,
Superintendent of Schools.

HELP YOUR FOREST FIRE WARDEN PREVENT FIRES—IT PAYS!

The prevention of forest fires is the most important and difficult part of the work of your forest fire warden who heads a local organization set up primarily for the security of your community's forest property. The importance and value of the work of the forest fire warden and his deputies is, perhaps, best appreciated during hazardous periods when fire danger is greatest. The public, however, looks to him at all times for speedy and economical suppression of going fires

To properly fulfill his mission, the warden needs the generous and understanding cooperation of the public at large. He attempts to secure this cooperation by the posting of caution notices, news items and by word of mouth, always carefully explaining the necessity of restrictions imposed. In the matter of giving cooperation, however, the public often fails. The record shows that an average of 7,300 acres of woodland are burned over by forest fires in New Hampshire each year. Analysis of fire causes reveal the fact that more than 98 percent of all forest fires are, consistently, the result of human carelessness and are preventable.

The careless smoker fails to properly extinguish his cigar, cigarette or pipe ashes or thoughtlessly throws them from the car window; the debris burner fails or refuses to consult the warden, as the law requires when the ground is not covered with snow, before attempting to burn; campers fail to properly extinguish their fires or frequently build fires when conditions are unfavorable.

Remember these rules:

1. Use ordinary common sense with fire in and near woodland.
2. Comply with requirements on the use of fire in and near woodland and when the ground is not covered with snow, secure written permission to burn from the forest fire warden.
3. Be careful when smoking in or near woodlands. Don't throw lighted material from moving vehicles.
4. Cooperate with and assist the warden and urge others to do so.
5. **HELP YOUR FOREST FIRE WARDEN PREVENT FIRES—**his efforts are only as effective as is the cooperation you give him!

F. J. BAKER,
District Fire Chief.
